Poppins After-School User Guide

Please read this Guide before applying for membership in the Nagoya University After-School Childcare Center Poppins After-School (hereinafter, "Poppins After-School").

1. Mission statement

Our goal is to help children to form habits of behaving respectfully in a safe and caring environment so that they can grow up to be intelligent, loving, and independent members of society.

2. Childcare policy

As a positive partner in the childrearing of working parents/guardians, we wish to provide children with a place to play and live at Poppins After-School while guiding them to do the following.

- | |
|---|
| (1) Cultivate the good manners that they need to live in society and enhance fundamental life skills. |
| (2) Develop daily study habits and an attitude of actively getting involved in various environments around them with curiosity and inquisitiveness and then introducing such habits into their lives. |
| (3) Develop communication and socializing skills as they interact with students from other schools/grades and people in the local community and also take an interest in different cultures. |
| (4) Enhance their abilities to find tasks for themselves, learn/think/judge for themselves, and discover better solutions. |
| (5) Foster a rich sense of humanity that leads them to collaborate with others, put themselves in others' shoes, and feel inspired, while also fine-tuning their own behavior. |
| (6) Become aware of dangers in daily life and be able to behave safely at their own discretion. |
